Bodwad, Dist-Jalgaon, Maharashtra - 425310, India

OBJECTIVE

A passionate software developer skilled in Angular and experienced with full-stack projects using Node.js. As a fresher, I have developed several self-initiated projects, gaining practical web development experience. I am seeking opportunities as an Angular Frontend Developer or Full Stack Developer to apply my knowledge and grow my career in a dynamic organization.

EXPERIENCE:

1. Trainee Software Developer

Internship(6month):Absolute Software company

PROJECTS

• Ecommerce App

- Tools, Technologies: Angular 17, Node.js, MongoDB, Express.js, Tailwind CSS, Angular Material, Postman, Github
- Developed a fully functional e-commerce platform with features like product listings, shopping cart, order management, and wishlist, etc.
- Created RESTful APIs using Node.js and Express.js to manage backend operations, including product management and user authentication.
- MongoDB for efficient data storage and management of user details, product information, and orders.

• Task magement

- Tools and Technologies: Angular17, Node.js, Express, CSS, Tailwind Css, Angular Material, Postman,
- Task management application that allows users to create, view, edit, and delete tasks, providing a full-stack solution.
- Created a RESTful API using Node.js and Express to handle CRUD operations, storing tasks in JSON file for simplicity.
- Angular Material and tailwind css for an enhanced user interface and experience, including responsive design.

• CRUD Operation

- Tools, Technologies: Angular17, Node.js, Express, CSS, tailwind css, Angular Material, Postman.
