OBJECTIVE

A passionate and self-driven software developer with skills in Angular for frontend development and hands-on experience in full-stack projects using Node.js, I am seeking opportunities as an Angular Frontend Developer or Full Stack Developer. I aim to apply my project-based knowledge and grow my professional career in a dynamic organization.

PROJECTS

- **Ecommerce App []**

  ◦ Tools,Technologies: Angular 17, Node.js, MongoDB, Express.js, Postman, Tailwind CSS, Angular Material
  ◦ Developed a fully functional eCommerce application with features such as product listings, shopping cart, order management, and wishlist.
  ◦ Implemented RESTful APIs using Node.js and Express.js to handle backend operations like product management, user authentication, and order processing.
  ◦ integrated MongoDB for storing and managing data, including user details, product information, and orders

- **Task magement []**   -
-   -
  ◦ Tools and Technologies: Angular17, Node.js, Express, CSS, Tailwind Css, Angular Material, Postman, Git
  ◦ Developed a full-stack task management application that allows users to add, view, edit, and delete tasks
  ◦ Created a RESTful API using Node.js and Express to handle CRUD operations, storing tasks in JSON file for simplicity.
  ◦ Integrated Angular Material and tailwind css for an enhanced user interface and experience, including responsive design.
